PROFESSIONAL SUMMARY

Results-driven SEO professional combining technical SEO, multi-region search optimization, content strategy, and modern web development (Next.js, TypeScript, Python) to build websites that rank higher, load faster, and convert visitors into qualified leads.

PROFESSIONAL EXPERIENCE

CoxFuture Technologies Pvt. Ltd. | SEO Expert (Intern)

March 2026 - Present | India

- Managing end-to-end SEO for two multi-region live websites: CoxFuture (India) & Denmaq (US/Canada).
- Keyword strategy, search intent mapping, and competitor gap research using Semrush & GSC.
- Technical audits with Screaming Frog and Lighthouse; resolving crawl, sitemap, & indexation errors.
- On-page optimization: schema.org structured data, metadata, internal linking, and Core Web Vitals.
- Managing Google Business Profile, GA4 tracking, and Meta Ads lead generation campaigns.

FEATURED PROJECTS

1. Job Board Web Platform (Tradeboard)

Tech: Next.js, TypeScript, Tailwind CSS, Technical SEO | Live: tradeboard-mu.vercel.app

- Developed job search, dashboard management, and US candidate-matching functionality.
- Designed and executed programmatic SEO structure and structured schema data for job postings.

2. AI Resume Analyzer (HireMatch AI)

Tech: Python, Flask, spaCy, Scikit-learn, PostgreSQL | Live: hirematch-ai-9lfe.onrender.com

- NLP-based resume analyzer evaluating candidate relevance against complex job descriptions.
- Implemented vectorization pipelines and database indexing for sub-second candidate ranking.
