PROFESSIONAL SUMMARY

SEO professional with hands-on experience managing SEO for two live company websites targeting separate markets (India + US/Canada). Skilled in keyword research, on-page, off-page and technical SEO using Semrush, GSC, GA4, Screaming Frog, Lighthouse and Google Business Profile. BCA graduate (2025) who also builds web apps (Next.js, TypeScript), combining SEO with practical front-end development.

EXPERIENCE

SEO Expert (Intern) — CoxFuture Technologies Pvt. Ltd.

March 2026 – Present

Managing SEO for two company websites: CoxFuture (India market) and Denmaq (US/Canada market)

- Handle end-to-end SEO across two live, multi-region websites — researching and targeting keywords separately for India and US/Canada audiences using Semrush
- Implemented complete on-page SEO: metadata, headings, internal linking, image optimization and region-specific content optimization
- Delivered technical SEO: XML sitemaps, robots.txt, crawlability fixes; monitored indexing and search performance via Google Search Console
- Audited every key page with Screaming Frog and Lighthouse, improving page speed, SEO scores and accessibility
- Set up and manage Google Business Profile and GA4 for both websites; track traffic, rankings and user behavior
- Write and publish SEO blog content targeting regional keywords
- Ran Meta Ads campaigns generating leads and traffic

Improved organic visibility through iterative optimization (additional work pending publication)
